Family SESSIONS

As your family story unfolds through the years I am here every step of the way to capture all of the precious moments.

I love to capture emotive, raw and candid photographs of your family; the fleeting cuddles, the tickles and all of the laughter. If you're after stiff, heavily posed images of your family, then I may not be the photographer for you. But if you want the real moments captured and memories that will take you back to a time that could otherwise be forgotten, then you've come to the right place!

Maternity SESSIONS

Congratulations on your soon-to-arrive bundle of joy! This is such an exciting time in your life and what better way to capture these memories than with memorable portraits. Capturing your pregnancy will be a great way to share these moments with your sweet baby in the future and to remind you just how incredible your body is!

Newborn SESSIONS

If you're reading this then you already know that you want a photography experience beyond what a mobile phone or a point and shoot camera can achieve to capture this oh so precious milestone moment in your life. As a professional newborn photographer, I pride myself in capturing and creating the precious images of the miracle that you helped create. Their sweet little toes, their tiny little fingers.. these moments fly by so quickly and your memory of them fades over time.

Newborns are best photographed within the first 2-3 weeks from birth which is why I always recommend my clients to book in their sessions while they are still pregnant. Anywhere from 16 weeks onwards is ideal. When booking in your session, I will add your name to my diary and then have you contact me within 1-3 days of babies arrival so that we can lock in a date for your session!
